

PHILIP ANTIN Software Architect | Technical Lead

Fayetteville, AR • (479) 790-2443
Philip.Antin@gmail.com • <https://philipantin.com>

Professional Summary

Software architect and technical lead with a unique background in engineering, ethics, and organizational leadership. Expert in building scalable front-end architectures and leading high-performing teams. His drive is to enable human competence in an increasingly intricate digital world.

Software Development Competencies

Front-end: HTML, CSS, SCSS, Javascript, Typescript, Angular, React, RxJS, NgRx, Redux, Jest, Cypress, Playwright, Storybook, Nx monorepo, UI security
Back-end: Java, Spring Boot, C#, Node.js, Elasticsearch, Docker, Kubernetes, nginx
Methodologies: DevOps, Agile/Scrum, Google Cloud (GCP), MS Azure (ADO), automated testing, TDD/BDD, design patterns, authorization models

Technical Experience

Expert Software Engineer

Sep 2018 – Dec 2025

JB Hunt Transport Services • Lowell, AR

Architectural Leadership & Innovation

- **Front-End Architect:** Front-end architect for Equipment project. Designed UI systems. Orchestrated technical roadmap. Participated in strategic planning and budgeting.
- **Technical Lead:** Front-end technical lead on Offer Management System and Match projects. Coordinated team progress and communication. Collaborated cross-functionally.
- **Modernization:** Restructured user workflows for greater efficiency and improved, data-driven decision-making. Migrated legacy applications to address critical vulnerabilities.
- **Quality Standards:** Participated in program pilot and ongoing refinement of AI-enabled UI development for the enterprise. Transformed developer workflows with contributions to CI/CD, process automation, unit testing, integration testing, review processes, code standards, AI adoption, and containerization.
- **Subject Matter Expert:** Delivered urgent front-end code changes quickly. Non-disruptively handled tricky refactoring that affected multiple teams at once. Participated in Special Interest Groups for UI development and APIs.
- **Innovation:** Multi-year Hackathon finalist.

Mentorship & Organizational Growth

- **Broad impact:** Advocated for, developed, and launched a successful Peer Development Program for all of Engineering & Technology. Presented multiple learning seminars for the entire organization.
- **People Leadership:** Mentored struggling developers into successful ones. Coordinated intern programs. Selected as exemplary mentor for apprenticeship pilot program.
- **Education:** Taught state management classes for developers. Coached public speaking with Toastmasters.

PHILIP ANTIN Software Architect | Technical Lead

Enterprise Software Projects

Offer Management System • TypeScript, Angular framework • Brokerage workflow for managing carrier offers • *Successful development/launch/support*

Match • TypeScript, Angular framework • Exception management workflow for operations execution through a load lifecycle • *Successful development/launch/support*

Equipment • TypeScript, Angular framework • Visibility and exception management workflow for transportation equipment • *Successful development/launch/support*

Distinctive Prior Accomplishments and Experience

Mentoring and leadership: Revised and expanded a mentoring program for student leaders, more than doubling previous participation.

Organizational development: Successfully developed and implemented an integrated, organization-wide approach to training and content for college students.

Relational management: Managed dozens of volunteers and coordinated with staff, using trust, patient coaching, and inspiration to achieve compliance.

Project management and client satisfaction: Developed eight college courses for seven schools, incorporating stakeholder requirements, format constraints, and ongoing client feedback.

Exemplary communication: Presented six times at professional conferences.

Education
