

PHILIP ANTIN Software Architect | Technical Lead

Fayetteville, AR • (479) 790-2443
Philip.Antin@gmail.com • <https://philipantin.com>

Professional Summary

Process-oriented software architect and technical lead with a unique background in engineering, ethics, and organizational leadership. Expert in building scalable front-end architectures and leading high-performing teams. Driven to enable human competence in a complex digital world.

Software Development Competencies

Front-end: HTML, CSS, SCSS, Javascript, Typescript, Angular, React, React Native, RxJS, NgRx, Redux, Jest, Cypress, Playwright, Storybook, Nx monorepo, UI security, accessibility (WCAG)
Back-end: Java, Spring Boot, C#, Node.js, Elasticsearch, Docker, Kubernetes, nginx, REST APIs, MongoDB
Methodologies: DevOps, Agile/Scrum, Google Cloud (GCP), MS Azure (ADO), automated testing, TDD/BDD, design patterns, authorization models

Technical Experience

Expert Software Engineer

Sep 2018 – Dec 2025

JB Hunt Transport Services • Lowell, AR

Architectural Leadership & Innovation

- **Front-End Architect:** Front-end architect for Equipment project. Designed UI systems. Orchestrated technical roadmap. Participated in strategic planning and budgeting. Owned outcomes. Collaborated with stakeholders on requirements. Wrote user stories.
- **Technical Lead:** Front-end technical lead on Offer Management System and Match projects. Coordinated team progress and communication. Collaborated cross-functionally.
- **Modernization:** Restructured user workflows for greater efficiency and improved, data-driven decision-making. Migrated legacy applications to address critical vulnerabilities.
- **Quality Standards:** Participated in program pilot and ongoing refinement of AI-enabled UI development for the enterprise. Transformed developer workflows with contributions to CI/CD, process automation, unit testing, integration testing, review processes, code standards, AI adoption, and containerization. Assessed and improved UI performance.
- **Subject Matter Expert:** Accelerated urgent front-end code changes. Non-disruptively handled tricky refactoring across multiple teams. Participated in Special Interest Groups for UI development and APIs. Generated and updated documentation.
- **Innovation:** Multi-year Hackathon finalist.

Mentorship & Organizational Growth

- **Broad impact:** Advocated for, developed, and launched a successful Peer Development Program for all of Engineering & Technology. Presented multiple learning seminars for the entire organization.
- **People Leadership:** Mentored struggling developers into successful ones. Coordinated intern programs. Selected as exemplary mentor for apprenticeship pilot program.
- **Education:** Taught state management classes for developers. Coached Toastmasters.

PHILIP ANTIN Software Architect | Technical Lead

Software Projects

Offer Management System • TypeScript, Angular framework • Brokerage workflow for managing carrier offers • *Successful development/launch/support*

Match • TypeScript, Angular framework • Exception management workflow for FTL operations execution through a load lifecycle • *Successful development/launch/support*

Equipment • TypeScript, Angular framework • Visibility and exception management workflow for transportation equipment • *Successful development/launch/support*

SemesTrack • TypeScript, React Native, Node.js, MongoDB, OpenAI • Assignment tracker, document vault, and schedule manager for students • *In beta testing*

Project Management Experience

SemesTrack: Researched comparables, defined requirements, planned architecture, developed implementation plan, orchestrated agents, and recruited beta testers for an original mobile app.

Equipment Application: Planned and orchestrated front end technical roadmap for greenfield Equipment project, providing training to managers and developers in best practices.

Match Performance Overhaul: Assess and diagnose performance issues with the Match application and barriers to scaling it; then develop a plan for addressing it, coordinate work across the eight teams involved, and execute the architectural changes without disruption to existing users.

Cell Group Leader Training: Successfully developed and implemented an integrated, organization-wide approach to training and content for college students.

Student Mentoring: Revised and expanded a mentoring program for student leaders, more than doubling previous participation.

College Courses: Developed and taught eleven different courses across six subjects, two modalities (face-to-face and online), and two cadences (semester and quarter), for stakeholders at three different colleges/universities.

Education

M.A. in Philosophy	University of Arkansas • Fayetteville, AR
M.Div.	Trinity Evangelical Divinity School • Deerfield, IL
B.A. in Bible	Central Bible College • Springfield, MO
A.A. in Sacred Music	Central Bible College • Springfield, MO

Management and Teaching Experience

Online Instructor	Northpoint Bible College • Haverhill, MA	Aug 2017 – Present
Adjunct Professor	NWA Community College • Bentonville, AR	Aug 2011 – Present
Adjunct Professor/Lecturer	University of Arkansas • Fayetteville, AR	
Faculty	University of Phoenix • Rogers, AR	
Small Group Pastor	Chi Alpha University of Arkansas • Fayetteville, AR	
Adjunct Professor	Trinity College • Deerfield, IL	
Visiting Professor	Latvijas Bībeles Koledža • Ozolnieki, Latvia	
Assistant Pastor	Evangel Chapel • Bridgewater, NJ
